

## A-320HVA

Handheld Vehicle Adaptor  
Amplifier Accessories

### Overview

The A-320HVA Handheld Vehicle Adaptor is the ultimate solution for vehicle communications. Now you can use the same handheld radio mounted or dismounted. The A-320HVA brings the proven technology of the A-320\* amplifier into the vehicle. It is designed specifically for "jerk-and-run" scenarios, and compatibility with widely fielded radios from Thales, Harris and others. The A-320HVA features a universal pocket that accepts up to 16 radios (including variants).

The A-320HVA can be used in tactical or non-standard vehicles as it is capable of operating from any 11 - 36 V DC power supply. Additionally, the power supply allows the user to attach an amplified speaker such as the MRC-67A to provide an audio interface.

\*A-320HVA compatible with A-320V1, A-320V2-A and A-320V3 only.
