The Vandal Resistant Telephones are based on a stainless steel faceplate and provide clear hands-free, loud-speaking operation.

Manufactured to a high standard, these telephones offer increased resistance to vandalism, and ensure that the primary function of communications is maintained at all times. The Vandal Resist Telephone has been designed to meet the needs of clients who experience loss through vandalism. However, the telephone is extremely simple to install and offers a convenient solution to a range of telephone siting problems in all locations.

The RA711-IP is a fully SIP 2.0 compliant hands-free telephone and intercom. The RA711-IP is available with various keypad configurations; including Full Keypad, Single, Two and Three button Auto-dial options. The RA711-IP is easy to program and has a non-volatile memory to ensure stored numbers are not lost when line power is disconnected. Available for many applications the RA711-IP is a versatile reliable product for security and emergency voice communications. Ideal for prisons, courthouses, rail platforms, car parks, police stations, hospitals, outside buildings, gate entry etc.
