

## Cable Systems

Eylex specialises in the supply of world class communications, power and cable system solutions to the Australian and New Zealand defence force and key Primes within defence industry.

Based in Castle Hill, NSW, our dedicated Cable Systems team pride themselves in the design and manufacture of cable assemblies to the highest quality and Mil-Spec standards.

We are focused on creating long term relationships with our customers that are built on transparency, customer satisfaction and supply chain performance.

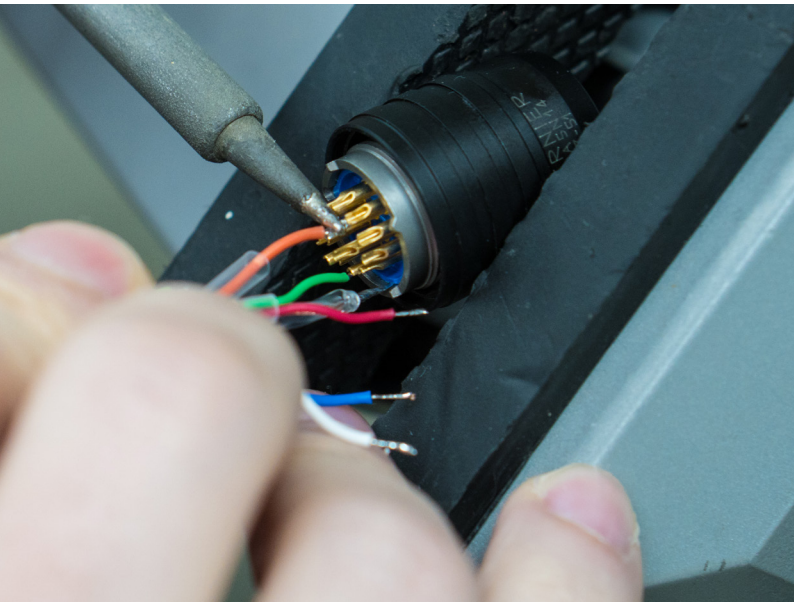

Our aim is to continuously build our value proposition for our defence customers and to contribute to the development of Australia's sovereign defence capability.

## Capabilities

- Build to Print
- Custom Designed Cables and Harnesses
- Cable Prototyping
- Small Run Production
- Large Batch Production
- Mil Spec Connector Assembly
- Coaxial Cables
- High Speed Data Cables
- High Density Soldering
- High Density Crimping
- Overmolded Cables
- 100% Production Testing
- Cable Fault Diagnosis and Repair
- AC Cable Manufacture and Test
- Harness and Cable Lay-up and Lacing
- Full Traceability
- ITAR Compliance
- Configuration Management

### Quality & Our People

Eylex is certified to ISO 9001:2015, IPC-620 and IPC-J-STD. Our dedicated team are vital to our success, and we are committed to the continuous development of their skills and knowledge through structured learning plans and progression through tiered technical levels.

### Engineering

Eylex's team of Engineers are ready to support with a range of services which include; Customised Cable Design, CAD 3D & 2D design, Application Engineering, Production & Process Engineering, Electrical & Mechanical Expertise, Project Management & Project Planning and Configuration Management of your specific requirements.

### Major Contracts/Customers

Eylex has a diverse customer base both in Australia and overseas, these include:

- Kongsberg Defence Australia
- Raytheon Australia
- Collins Aerospace
- Australian Defence Force
- Thales Australia
- L3 Harris Australia
